***Important Announcement from Sterling United Federal Credit Union (SUFCU) CEO Dan Bullock:***

After performing analysis on transaction data and extended discussion with the Board of Directors, SUFCU is opting to not re-open the Atlas branch. The announcement comes approximately 18 months after a decision was made to close the branch location as precaution during the early stages of the COVID-19 pandemic.

Several factors were considered in this difficult decision and ultimately, we believe we can continue to effectively serve membership who live or work on the North side via our free online banking, mobile app with remote deposit capabilities, bill pay, and 3% checking. Additionally, as the CU proved during the pandemic, most of our consumer loan offerings can be closed via DocuSign or by visiting our other convenient locations on the Eastside and Westside of Evansville.

The ATM will remain on premise at the Atlas Group Headquarters to allow members to perform cash withdrawals. We have enjoyed the opportunity to serve the Atlas employees onsite and hope to continue these relationships by offering quality financial products and services for the extended future.

Respectfully,

A handwritten signature in black ink, appearing to read "Dan Bullock", is positioned above the printed name.

Dan Bullock, CEO
